

Larvik. Aug.2021

End Of Life Notification;

Jotron Tron AIS TR-8000 Class A, P/N 85500 and 88410P

Jotron AS hereby inform that the current Tron AIS TR-8000 Class A transponder will no longer be commercially available from **01. Sep.2021** due to changes in the product standard IEC 61993-2.

As a replacement to the Tron AIS TR-8000, Jotron is proud to announce the release of our new **Tron AIS TR-8000 MK II** which fully comply to the new and latest version of the IEC 61993-2 Ed.3: 2018.

The two new version of Tron AIS TR-8000 MK II which will be commercially available are as follows;

P/N 103660, Tron AIS TR-8000 MK II Class A Complete with GPS antenna

P/N 103670, Tron AIS TR-8000 MK II Complete IMO package, including separate GPS and VHF antenna and pilot plug.

Further information about the new Tron AIS TR-8000 MK II can be found on Jotron web; <https://jotron.com/product-category/gmdss-ais-lights>

Should you have commercial questions related to the new Tron AIS TR-8000 MK II, please contact your local Jotron Area Sales Manager.

Support and/or service will be offered to all installed systems of the Tron AIS TR-8000 Class A Transponder by contacting; support@jotron.com
